

# Cachet Village

## ANIMAL HOSPITAL

*For over a month now we have had a Surgically Clean Air unit (Cascade White SCA6000C) in our treatment area of our veterinary hospital and love it! The air is so much lighter and cleaner, the odours in the clinic are almost non-existent, and that 2 o'clock wall, that used to make us feel tired, doesn't seem to come anymore since our air is much cleaner. I wish we would have got one years ago.*

Dr. Danny DeRose

Cachet Village Animal Hospital

Resident of the American Veterinary Dental College
