WHY IS AIR PURIFICATION IMPORTANT?

According to the American Lung Association’s State of the Air 2024, exposure to fine particulate matter (2.5 μm and under) has been linked to significant health risks, including respiratory issues and cardiovascular disease. Fine particulate matter can penetrate deep into the lungs, exacerbating conditions like asthma and allergies. With **indoor air** often being **2-5x more polluted than outdoor air**, addressing this pollution is essential, especially since **68% of human diseases are related to indoor air pollution.***

BENEFITS

IMPROVE INDOOR AIR QUALITY

By capturing **99.97% of airborne particles** as small as **0.3 μm** , including dust, pollen, bacteria, and viruses, our Cobalt® Air Purification Solutions help create healthier environments in homes, offices, schools, and other public spaces by reducing allergens and pollutants.

INCREASE EFFICIENCY AND SUSTAINABILITY

Cobalt® Air Quality Solutions promote sustainability by improving air quality without the need for harsh chemicals, reducing energy use, and lowering operation costs by reducing the demand on your HVAC systems.

PROMOTE HEALTH AND WELL-BEING

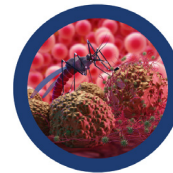

Studies show that improving indoor air quality with HEPA filtration can **decrease respiratory problems**, making it a key factor in promoting better overall health and well-being.

WHISPER QUIET AIR PURIFICATION

Our Cobalt® Air Quality Solutions provide faster air purification in larger spaces while maintaining a peaceful environment, essential in areas like offices, schools, and homes.

WHAT HVAC FILTERS LEAVE BEHIND

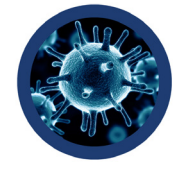

μm = micrometer

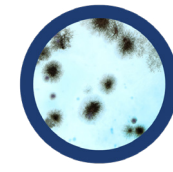

Zika Virus
.00 μm

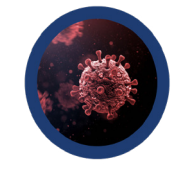

Smoke/Odor

Cleaning Aerosols
4-6 μm

FEATURES

COBALT® 2'X2'

Machine Specs (mm):

1245(L) x 535 (W) x 360 (H)

Coverage: up to 861 square feet

Power: 70 W

COBALT® 2'X4'

Machine Specs (mm):

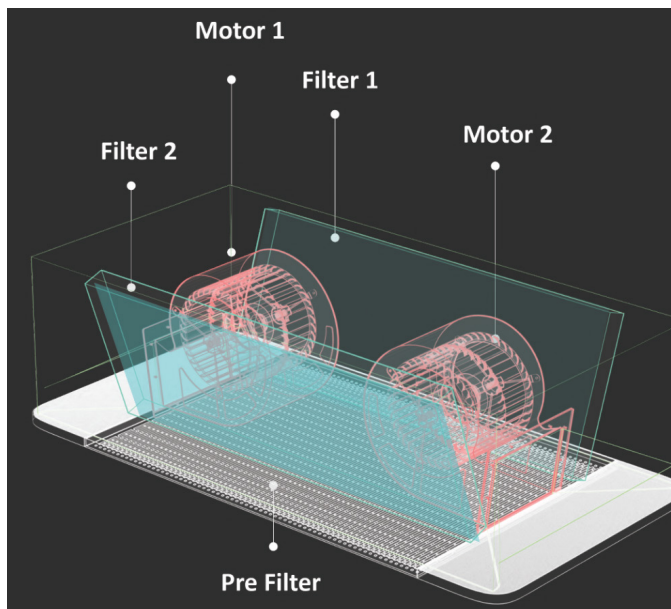

636(L) x 636 (W) x 255 (H)

Coverage: up to 2152 square feet

Power: 250 W

FILTERS

FILTRATION SPECIFICATIONS

Includes: Pre-Filter, HEPA-RX (2x)

MERV 16 HEPA FILTRATION RATING

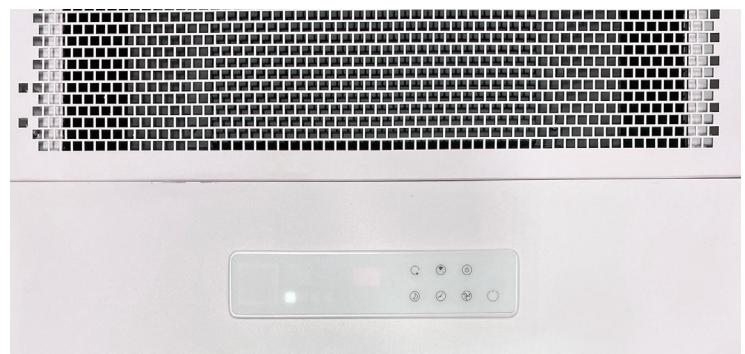

Our Cobalt air purifier utilizes two HEPA-RX filters operating at a MERV 16 rating, designed to capture ultra-fine particulate matter that can harm health, particularly for individuals with respiratory issues. Our dual-motor design enhances performance, ensuring maximum efficiency without sacrificing air circulation, so you can enjoy cleaner air without compromising energy savings.

COST EFFECTIVE

Our filters work in tandem with your HVAC systems to maintain energy efficiency, minimize operational costs, and reduce maintenance expenses with their long lifespan.

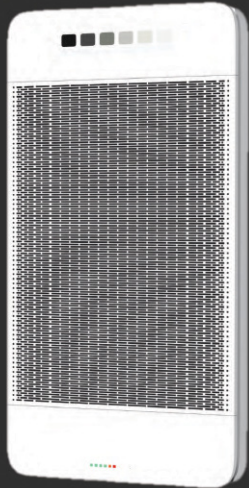

FUNCTIONS

1. Proximity Motion Sensor
2. Automatic Mode
3. Sleep Mode
4. Operation Scheduling
2H, 6H, 12H, 24H

THE SURGICALLY CLEAN AIR DIFFERENCE

Physician Backed Air Purification Solutions

Our air purification solutions are trusted by **over 55,000 physicians**, a testament to their proven effectiveness in delivering clean, healthy air. This trust sets us apart as the elite solution for indoor air quality, not only in healthcare but across various industries that demand top-tier air purification performance.

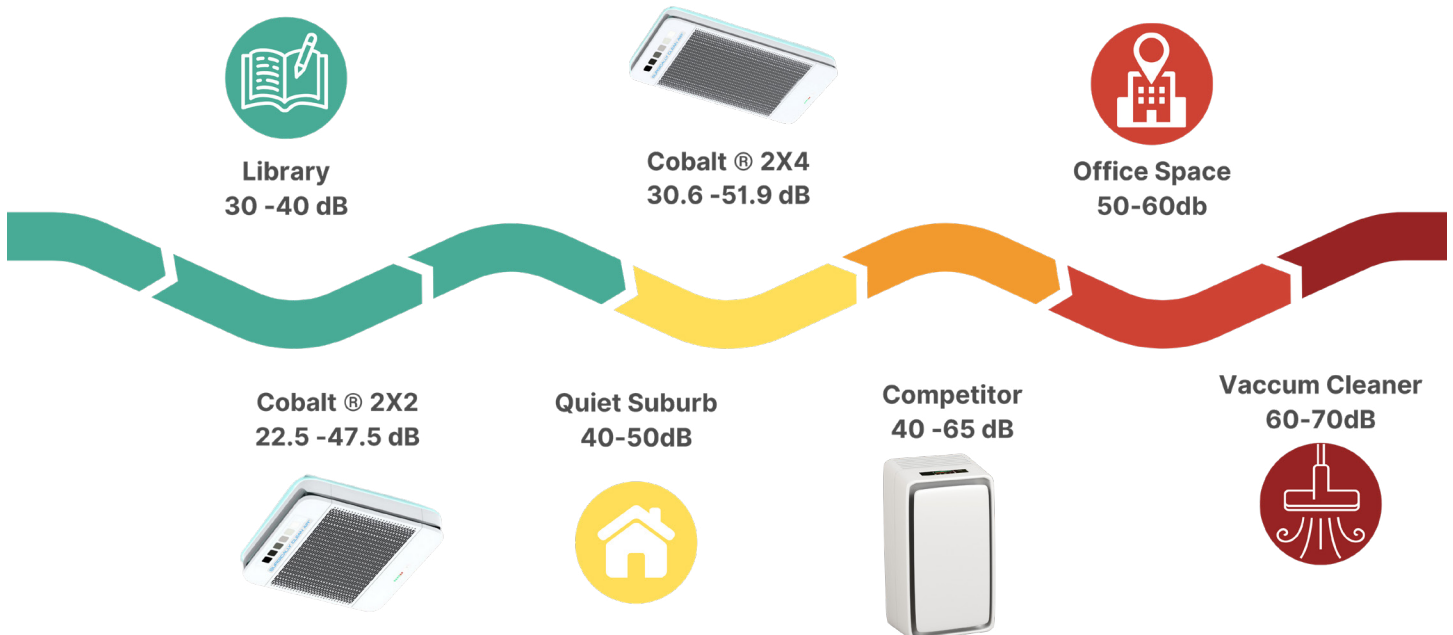

White-Glove Service, Expert Care

Our white-glove service and air purification specialists provide not only advanced technology but also expert guidance to ensure safe indoor air quality, from installation to ongoing support.

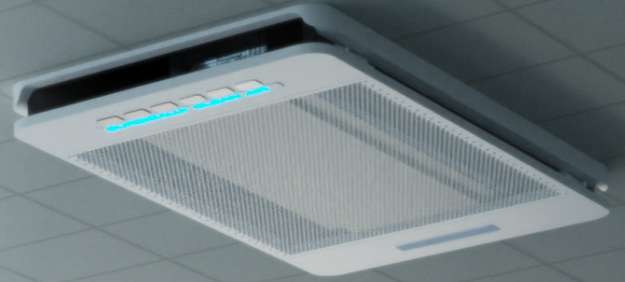

HOW QUIET IS THE COBALT®?

Cobalt® Air Quality Solutions are powerful but quiet, designed to operate as quietly as daily ambient sounds, help maintain a calm and productive atmosphere without causing distractions.

SURGICALLY CLEAN AIR®
